

**Post– doctoral position in Organic/Medicinal Chemistry/Catalysis**

Applications are invited for Postdoctoral Research Associate to work under the supervision of Dr. Rangappa Keri on a research project funded by Jain University, Bangalore, Karnataka, India. The project involves catalysis and its application to synthetic organic chemistry.

Find out more about the Keri research group at <https://cnms.jainuniversity.ac.in/Faculty-Rangappa-Keri.htm>

**Candidate's Profile should include:**

- A Ph.D. degree in Organic Chemistry within last 1-2 years.
- Experience in research in synthetic organic/medicinal chemistry, preferably in fields related to catalysis as proven by recent publications in international peer reviewed journals and/or books/book chapters, and by presentations and contributions to national and international scientific meetings.
- Hands on experience in dealing with air and moisture reactions.
- Adequate training and knowledge in general/organic/medicinal/analytical chemistry to teach basics at PG level.
- Necessary didactic, organizational and communicative skills for teaching at an academic level.
- Experience in leading research projects and/or coaching Ph.D. students and international academic experience will be considered an asset.
- Ability to work closely and collaborate with colleagues is a must. Proficiency with the English language is required.

**Responsibilities:**

Responsibilities include establishing a vigorous research program, teaching graduate students, and providing professional/institutional services.

**Application Procedure:**

Applicants should send the following in a single PDF file,

1) Detailed curriculum vitae, 2) statement of research interests and goals, and 3) names and contact details of three references to;

**Dr. Rangappa S. Keri**

Assistant Professor

Organic and Medicinal Chemistry Lab

Centre for Nano and Material Sciences,

Jain University, Jain Global Campus,

Bangalore – 562112
